Doug Vance Letter by Preacher Howard
7/26/26

Doug is a inspiration to us all at Beckley prison camp,I am the inmate religious preacher and I cant quantify how loved and cared about Doug Vance was when we heard he had a medical emergency in January here at Beckley. Doug was not afforded an opportunity for physical or speech therapy.

Watching this Man on the recreation yard doing self-rehab exemplifies his can-do, never give up attitude and a direct refection of his overall character, his faith not wavering for a second that he can recover and make it back to his family a even stronger man physically and mentally.

To describe Doug as a hard worker is an understatement, with the exception of when he suffered his stroke, Doug has never missed a day of work. Despite having the stroke,Doug was back to work at prison camp quicker then expected and at church services. There's not a job or project that he is unwilling to undertake, no matter how hard or dirty that job may be Doug gives his all. He always attempts to make things better, Doug is a exemplary man of faith and I'm sure if he is honored a early release he will be that positive light for his family and community.

Howard
